## Associate Java Developer

### WORK EXPERIENCE

---

**Successive Technologies** • Noida • Full-time • 01/2022 - Present

#### Associate Java Developer

- Achievement: Recognized for fortifying team synergy on the Sarvagram project, and acknowledged as an integral contributor. Earned client appreciation by streamlining processes, culminating in a 20% reduction in backlog. Identified and implemented improvements systematically, optimizing workflow and achieving a 15% boost in project efficiency.

### PROJECTS

---

#### Sarvagram

02/2023 - 05//2024

- Collaborated with a cross-functional team to analyze and design system solutions aligned with client requirements, achieving a remarkable 20% improvement in project alignment metrics.
- Worked directly with global customers, providing timely troubleshooting and issue resolution, maintaining an outstanding 95% customer satisfaction rate.
- Efficiently addressing problem tickets led to a substantial 30% reduction in user-reported issues, significantly enhancing overall system reliability.
- Designed, debugged, and deployed Java-based web applications and components, realizing a significant 25% improvement in the efficiency of streamlined internal processes.
- Successfully executed strategic functional changes, enhancements, and customizations, leading to a commendable 15% improvement in both business and technical system requirements satisfaction.
- Adapted positively to changes in the work environment and development approaches, actively contributing to ensuring project continuity and playing a crucial part in an impressive 20% increase in overall project success metrics.

#### Smart Assist Bot:

- Designed and executed a highly efficient Java-based bot application, resulting in a substantial 25% reduction in employee data analysis time, contributing significantly to enhanced productivity.
- Implemented a comprehensive performance management system, involving weekly and quarterly feedback mechanisms, as well as automated email notifications. This initiative resulted in a more structured and informed performance assessment, fostering continuous improvement.
- Achieved remarkable success in boosting employee engagement by 20%, concurrently reducing communication gaps within the team. This accomplishment signifies a positive impact on team collaboration and overall workplace morale.

## Dashing the Tickets:

- Employed Grafana to create visually insightful representations of tickets, leading to a substantial 20% improvement in tracking accuracy. This initiative not only enhanced our ability to monitor project progress but also provided valuable insights for data-driven decision-making, fostering a more informed and efficient workflow.
- Demonstrated effective milestone management, significantly contributing to a noteworthy 15% increase in project oversight efficiency. By ensuring the timely completion of key project milestones, we not only met client expectations but also optimized resource utilization, contributing to overall project success.

## EDUCATION

---

### Bachelor of Technology (B.Tech.) in Computer Science

IIMT College of Engineering • Greater Noida • 06/2018 - 08/2022

## SKILLS

---

**Programming Languages:** ExpressJs, java, JavaScript, NodeJs, ReactJs, TypeScript

**Java Technologies and Frameworks:** Apache Kafka, Grafana Dashboard, Hibernate/JPA, Java 8, Jenkins, MVC Architecture, Spring Boot, Spring Security

**Web Technologies:** CSS, HTML, Thymeleaf

**Tools and Build Tools:** CI/CD, Docker, Eclipse, Gradle, IntelliJ IDEA, Jira, Maven, VSCode

**Version Control:** BitBucket, Git, GitHub

**Database:** MongoDB, MYSQL, PostgreSQL

**Cloud Services:** AWS

**Testing:** JUnit

## CERTIFICATIONS

---

### MySQL Basic & intermediate

Hackerrank • 09/2022 - Present

### C language & Java Core and Advance

Ducat • 06/2019 - 12/2020

### Internship in web development

WorldItZone • 05/2019 - 06/2019
